

ANNUAL REPORT 2019

Highlights of Accomplishments

CANCER CARE PROGRAM

1. Medical Oncology Fellowship Program

- As fund conduit, ASF received ₱1,600,448 (higher than last year's ₱1,319,000) from 6 Pharma Companies supporting the fellowship training of 7 Medical Oncology Fellows.
- 4 of these Fellows graduated last May 2019 after 2 years of training at the Cancer Institute and passed the Diplomate Exam required by Philippine Society of Medical Oncology to become a certified Medical Oncologists.
- Most of these Medical Oncologists have returned to their province of origin for their medical practice.
- The following Pharma companies that continued their funding support were:
 - a. UNILAB
 - b. Macro Pharma
 - c. Good Fellow Pharma
 - d. Pascual Laboratory
 - e. Astra Zeneca Pharmaceuticals
 - f. Fresenius Kabi, Phils.

2. Partnership with Johnson & Johnson, Phils.

a. Donation of Mobile Treatment Unit

- On November 29, 2018 ASF received an in-kind donation of a customized mobile hematology and oncology treatment unit from Johnson and Johnson (Philippines) Inc. The vehicle is a first of its kind – a customized Mini Bus converted into a mobile treatment unit for the use of the Cancer Institute, UP-PGH, in support of ASF Cancer Program.
- The cost of the Hyundai Mini Bus H350 including customization and interior facilities is ₱2.6 million
- The van was turned-over to the Cancer Institute in February 2019 and its first roll-out activity was held on July 5 to demonstrate how it can facilitate patient care response and support campaigns against the Big C. A lecture was also conducted to the general public about cancer screening, detection and treatment – particularly for leukemia, lymphoma and multiple myeloma.
- The first deployment of the Van for outreach program was an out-of-town medical mission in Cavite while the 2nd outreach program was in Novaliches.

- Cancer lectures
- Medical consults and cancer screening
- Visual Screening and distribution of corrective eye glasses
 - Metrobank Foundation donated 600 pairs of eye glasses to ASF

b. Educational Grant

- ASF enter into an Educational Grant Agreement with J and J which the latter approved a grant amounting to ₱300,000 to fund ASF's Cancer Lectures in various communities in Metro Manila and nearby provinces.
- The ASF Cancer Lecture Series was held at the Cancer Institute on July 5 with 171 participants, and in Ternate, Cavite on July 20 with 548 participants. The latter was conducted in partnership with Cancer Institute and the local government of Ternate.

3. Chemo Medicine Assistance Project

- Started in 2010, the Foundation provides an annual funding support amounting to ₱200,000 for the maintenance medicines of qualified beneficiary-patients. To date some ₱1.8 million had been disbursed for the program. A total of 101 patients were supported and of these, 18 patients already graduated after 5 years, 11 died due to progression, 4 are alive under progression, 11 lost to follow-up and 55 are currently assisted.

4. Status of Cancer Fund under the management of Philippine Cancer Society

| | |
|------------------------|-------------|
| Fund, Beginning (1999) | ₱13,000,000 |
|------------------------|-------------|

| | |
|-------------------------|-------------|
| Fund Balance, Dec. 2018 | ₱14,593,958 |
|-------------------------|-------------|

SMALL ISLAND PROGRAM

1. Education

- Manamoc Senior High School Laboratory Maintenance Activities
 - Repainting of external ceiling of the Cookery Lab and doors (front and back) of the Casita. Tremendous summer heat caused the peeling off of paints.
 - Repair of 1 sliding door of Casita as rain water seeps through the bottom of the door.

- Replacement of wood jambs of one sliding door at the Food and Beverage Lab. Intense summer heat caused the wood to warp and thus the door could not be opened. Replaced bottom part of door jamb with new lumber
- Planted Chinese bamboo trees at the Casita's back door to shield it from intense heat in the afternoon during summer.
- Marked improvement in the landscaping of the surroundings had been noted with the presence of various endemic ornamental plants which were well-maintained.
 - Palmera – 38 trees planted; 100% survival rate
 - Palawan Cherry – 18 seedlings were planted; 16 survived

➤ SHS operation

- For School Year 2018 – 2019
 - Enrollees: 116
 - Grade Eleven: 59;
 - ⇒ 2 Stop Schooling
 - ⇒ 42 went into tech-voc specialization
 - ⇒ 15 went on to enroll under General Academic Strand
 - Grade Twelve: 57
 - ⇒ Graduated: 54; Drop-out: 3
 - Origin of students who were not from Manamoc
 - ⇒ Busuanga - 1
 - ⇒ Coron - 2
 - ⇒ Taytay - 3
 - ⇒ Culion - 1
 - ⇒ Magsaysay - 2
 - ⇒ Cuyo Mainland - 2
 - ⇒ Algeciras/Concepcion - 2
- For School Year 2019 – 2020
 - Enrollees: 132
 - ⇒ Front Office / Tour Guiding Services – 8
 - ⇒ F & B and Bread & Pastry – 46
 - ⇒ Cookery – 28
 - ⇒ Housekeeping & Tour Guiding Services – 31
 - ⇒ Carpentry – 4
 - ⇒ General Academic Strand – 15
 - Grade Eleven: 72
 - Grade Twelve: 60
 - Origin of students who were not from Manamoc
 - ⇒ Roxas – 1

- ⇒ Magsaysay – 1
- ⇒ Taytay – 1
- ⇒ Cuyo Mainland – 3
- ⇒ Algeciras – 1

➤ Scholarship Assistance Program

- Academic

- 1 Scholar graduated in July 2019 with BS Psychology Diploma. She is now taking review classes for the incoming Psychometrician Board Exam in October
- 2 Scholars are on their 2nd year taking up Education and Financial Accounting in FEU and PSBA, respectively
- 1 new scholar accepted this school year taking up Accountancy at PSBA

- Technical – Vocational

- DualTech – 2-Year Course for Boys

- ⇒ 4th Batch of 11 students started in July 2018 and are already on their OJT
- ⇒ 5th Batch of 10 students started in July 2019

- Anihan Technical School – A 1-Year Course on Quick Service Restaurant Operations

⇒ The Scholarship Program is sponsored by Jollibee Group Foundation in partnership with Anihan Technical School located in Calamba, Laguna which conducts the training of students.

⇒ Eleven (11) senior high school graduates from the Municipalities of Agutaya and Cuyo passed the rigorous interview and written exams administered by Anihan Technical School representatives.

⇒ The course runs for 12 months. The first six-months consists of units in bread and pastry production, cookery, and food and beverage services as well as administrative units essential in the QSR industry such as point-of-sales system and stock inventories. After which, students will undergo a six-month on-the-job-training at a reputable food service industry partner.

2. Livelihood/Enterprise Management

➤ Agri-Livestock and Poultry

- Vegetable Farming – there were 27 vegetable varieties sold from Manamoc with a total of 1,695 kilos amounting to ₱79,000.
- Poultry Farming – there was an increase in the number of poultry farmers having layers from 4 to 15 and; 8 raisers for 45-day old chicken (broilers).
 - Egg delivery to the resort started only in June 2019 and for the last two and a half months, 470 trays (or 14,100 pcs) of eggs were delivered. A total sale for the period was ₱105,750.
 - Chicken Meat – total delivered from April to August 2019 was 1,781 kilos amounting to ₱302,787.
- Hog-raising – 352 individuals (70% of households) from Manamoc supplied pork to the resort and community. During the period, 444 heads or 29,135 kilos were sold both to the community and the resort amounting to ₱5,827,000.
- Total Sales amounting to ₱6,314,537 were generated from goods sold to the resort and community; 3% lower compared to last year's ₱6.5 million.

➤ Handicraft Production

- Continuous production of beach hats, picnic boxes, pillows, bottle holder, beach mat holder and pastillas boxes involving women from 6 island communities.
- These products were sold to Amanpulo, community visitors and stores in Manila.
- Total sales amounting to ₱241,000 were generated during the period.
- Technical and funding support:
 - ASF provided ₱20,000 as seed capital to Diit Island Weavers to be used to pay for the finished products made by its members. The said fund came from the excess training fund provided by the OVP.
 - ASF assisted Diit Weavers in the preparation of proposal which resulted in successfully securing a grant from DSWD – Sustainable Livelihood Program Fund amounting to ₱180,000 to be used as additional capital. The leverage/counterpart required by DSWD from

the Weavers was to raise funds amounting to ₱10,000 to establish a modest weaving/product display center and installation of solar lightings.

- Various product development training and mentoring were conducted to another group of weavers in Agutaya particularly for beach hat-making to complement the production from Diit Weavers.

➤ Status of Manamoc Community/People's Organizations

- Formation/Registration of Manamoc Cooperative

- The Manamoc Livelihood Association has finally been registered with the Cooperative Development Authority as Manamoc Multi-purpose Cooperative.
- With assistance from ASF, the Coop is now working on another set of documents to secure permit from BIR to print its Official Receipt.

- Manamoc Electrification Association (MEA)

- MEA ceded the management and operation of providing electricity to the island in February 2019 to Power Source.

3. Community-based Health Program

➤ Health Infrastructure Improvement and Provision of Medical Equipment

- Installed floor tiles, pantry's countertop, sink and hanging cabinets to the Barangay Health Center of Algeciras and Concepcion; installed proper signages for every room
- Provided one delivery bed and a recovery bed each for Algeciras and Concepcion Health Center
- Installed a wall divider for Manamoc Health Center to add a recovery room for mothers with newborn children.
- Provided various medical equipment to Manamoc Health Center costing ₱243,000. Foremost of this equipment are:
 - Autoclave machine for sterilization of medical instruments
 - 1 unit delivery bed; 2 units recovery bed (Mechanical 2 Cranks with IV Stand with 4-inch mattress in leatherette) and 2 bedside tables
 - Instrument bowl with stand
 - Fetal Doppler
 - Wheelchair

- Oxygen-filled tank: 2 units 50-lbs tanks and 2 units 5-lbs tanks (with tank carrier and accessories)
- 1 complete set of dressing instruments (10 pcs)
- 1 set of maternal care instruments (4 pcs)
- Pedia stethoscope
- Assignment of additional Health Manpower at Manamoc Health Center
 - ASF made an appeal to the Regional Director of DOH Region 4-B to renew the job order and assignment of a new midwife assigned in Manamoc to assist the old/current midwife. The appeal was approved including the assignment of 1 DOH Nurse.

➤ Annual Health Caravan/Medical Mission

- Held last May 28 to June 1, 24 doctors participated in the mission including the Regional Director of the DOH Region 4-B. Amanpulo company physician and Spa Manager also participated in the 3-day mission.
- Served a total of 3,261 patients and rendered 3,717 medical services compared to last year's 2,867 and 3,532 respectively.
- The contributing factor leading to these increases was the additional services of urine test and blood chemistry. As one doctors puts it "having the lab tests helped us not only confirm our diagnosis but also educate the patients based on objective tests. The patients understood more and took our advice more seriously because there are numbers to show them."
- This year's mission started the Health Lecture Series handled by one volunteer doctor. According to the doctors, having the lecture was really helpful not only in identifying the common disease in the community and their management but also preventive care particularly on proper nutrition, hygiene and sanitation and physical exercise. It was agreed that the Lecture Series will be continued in the succeeding medical missions.
- Numerous cases of hyperacidity, infections (UTI), allergies, work-related musculoskeletal pain were observed/addressed, aside from the usual hypertension and upper respiratory tract infection.
- We thanked the donors who supported the annual health initiative:
 - West Villa Property Holdings
 - Mr. Andres Soriano/ANSCOR
 - PRI/ Amanpulo
 - Island Aviation, Inc.
 - SHARE Foundation
 - Department of Health – Region 4-B
 - Volunteer Doctors

- Communities' Counterpart
- Procter and Gamble Philippines
- Macro Pharma Phils
- OE Pharma Phils
- 7-Eleven
- Power Source

➤ Sustained management and operation of TB-DOTs Project

- Continuous active case-finding of possible TB patient in Algeciras and Concepcion
 - 11 patients who were under medication last year were declared medically cured
 - During the first quarter, 15 TB patients out of 74 who underwent sputum screening were found positive. 10 completed the treatment and were declared medically cured while 4 are still undergoing treatment and 1 discontinued medication due to skin allergy.
 - Towards the end of the period, another batch of 85 possible patients underwent screening and 25 were found positive and are now under medication.
- Infrastructure improvement of the Laboratory
 - Installed floor tiles of the TB-DOTs Laboratory
 - Replaced old roofing materials
- ASF supported and assisted in the implementation of TB-DOTs Congress in Diit and Algeciras islands.

➤ Sustained efforts on maintaining Potable Water supply, Sanitation and Hygiene (WASH)

- Water Supply – various activities were conducted by ASF and the Barangays to ensure potability of water source in Quiniluban particularly in Manamoc by way of regular chlorination, prohibiting laundry near the sources of water, installation of roofing structure and concrete floor slab surrounding the water source, and conduct of information and education campaign on the proper preparation of safe drinking water especially during rainy season
- Sanitation – encouraged households (HH) to have their own sanitary toilets. As of this report, there is a total of 2,170 HH in Quiniluban and of these, 1,827 have individual sanitary toilets distributed as follows:

| | Total Population | with Sanitary Toilets | |
|----------------|------------------|-----------------------|-----|
| ▪ Algeciras – | 964 | 878 | 91% |
| ▪ Concepcion – | 701 | 477 | 68% |
| ▪ Manamoc – | 505 | 472 | 93% |

To further support the initiative on Sanitation, ASF distributed 90 pcs of steel drums to Agutaya particularly in Algeciras and Concepcion to be used as septic tank and garbage bins. Also, provided 10 pcs to Manamoc Elementary and High Schools for garbage bins.

- Personal Hygiene Lectures focused on children in 9 Day Care Centers and 3 Elem. Schools. Teachers and Parents were provided with lectures, with proper monitoring done at the school level.
 - Taking daily bath
 - Clean clothes
 - Clean fingernails
 - Regular hair cut

➤ Reproductive Health and Family Planning

- Sustained activities involving couples counselling on reproductive health and family planning resulting in 8 additional couples practicing family planning. Last year's 862 FP practitioners had been sustained.
- The noticeable increased in early teen pregnancy in the islands prompted ASF and midwives from the Health Centers to reactivate the Youth Peer Educators' group to reach out to fellow youth for counselling sessions.
- ASF supported the implementation of Couples (Buntis) Congress in 3 municipalities of Cuyo, Agutaya and Magsaysay.

➤ Nutrition Program

- The supplementary feeding program for children 4 years old and under has been continuing for 10 months. This is funded by DSWD and normally starts in June. The same arrangement is being observed by the school, with funding coming from DepEd.
- During the period, 197 children (4 years and under) were identified as malnourished. Of these, 64 were found to be severely underweight (SUW), 129 underweight (UW) and 4 overweight (OW). At the end of the period, 138 had regained their normal body weight; 7 remained SUW and 52 UW.
- At the school level, 148 children from Kindergarten to Grade III were assessed. 21 were found to be SUW, 127 UW and 3 OW. At the end of 6

months, 113 children returned to their normal weight level; 3 remained SUW and 32 UW.

- As the normal feeding period only covers 10 months for 4 years old and under and 6 months for elementary level, ASF will provide supplementary feeding for the months not covered by DSWD and DepEd respectively.

4. Environment Protection

➤ Marine Sanctuaries

- Sustained protection efforts gained from prior years on the 10 established Marine Protected Areas (MPAs)
 - Data from annual reef monitoring held in 8 sites showed an overall increased in live coral cover of 16% from last year's 7%. More branching corals were observed to be growing particularly in Manamoc.
 - Noted increased presence of Crown of Thorns (COT) in Manamoc last summer. The MPA management team and barangay council members made 2 outings to collect almost a thousand COT from coral reefs. The affected corals are gradually recovering as observed during the recent monitoring.
 - 2 incidents of fish kill (small fishes) occurred last summer (March and May) in Manamoc. Both instances happened simultaneously in Calampisao area and the Marine Protected Area
 - LGU of Cuyo provided equipment to Bantay Dagat including search lights, telescope, fins, goggles and hand-held radios
 - A total of 14,016 hours was logged (18,956 hrs. last year) for patrol and surveillance activities with only 3 apprehensions compared to last year's 10.
- Fish Catch Survey on the impact of MPA
 - ASF has partnered with Manamoc Senior High School to conduct a research study on the impact of MPA on the livelihood of Manamoc Community. With 80 respondents from a total of 104 identified fisherfolks in Manamoc, the following results were generated:
 - 16 of 18 fish species usually caught by fishermen were found inside the marine protected area. This clearly shows that there is a spillover of fish population from inside the MPA to the open/unrestricted area which are then caught by the fishermen
 - Fish catch increased from 1.5 kilos per hour in 2011 to 3.3 kilos per hour in 2019 using hook and line; 1.3 kilos to 2.5 kilos per hour using fishnets and 2.2 kilos per hour using spear gun.

- On average, a fisherman could catch 30 kilos of fish per outing (8 hours) during peak season from April to October and 10 kilos during lean season from December to February.
- Coastal Clean-up and Mangrove Regeneration
 - Activities pertaining to coastal clean-up and mangrove planting had been regularly implemented, with active participation of schools and the wider community.
- Multi-purpose Center funded by Seacology– US.
 - Completed construction of the Multi-purpose Center in Manamoc for the use of various people’s organizations (meeting venue and operation needs). The total grant secured by ASF for this project was ₱1, 231,000. The Center has 1 meeting room, an office space for at least 5 tables, filing room, a pantry and 2 comfort rooms with 2 water tanks (1 for potable water and another for rain catchment).
 - Part of the grant was also used to buy various office equipments, conference tables, chairs, electric fans, filing cabinets, pantry stuff (plates, spoons and forks, thermos, stove with gas tank, etc.)
 - The required leverage for this grant is a 20-year commitment to protect the Mangrove Forest and Caseledan Lagoon.
 - This is the 5th project grant secured by ASF from Seacology.
- Solid Waste Management Advocacy (Information and Education Campaign)
 - Solid Waste Management Council was formed in Manamoc represented by various community sectors.
 - Several meetings with the Council and the Environment Committee of Barangay Manamoc were held to discuss the waste management concern of the community.
 - Advocacy campaign among the residents and variety store owners were also held by ASF in coordination with the Barangay. As of now, 75% of Manamoc residents observe waste segregation at source.
 - The Barangay Council requested Cuyo LGU to allocate funds for a shredding machine to reduce the volume of plastics in Manamoc. Result of this request will be known this September. If and when the LGU could not provide the machine, ASF through its donor (SHARE Foundation) has expressed willingness to donate the machine.
 - In mainland Cuyo, customers of supermarkets and community stores are now using recyclable eco-bags and/or rattan baskets when doing their

grocery or going to the market. Teams were organized by LGU to monitor the market, local stores and supermarkets on the use of plastics.

INSTITUTIONAL GOVERNANCE

1. Staffing

- Hired Deputy Director – Rosalynn V. Estor, a Management Economics graduate from Ateneo de Manila whose work experiences were all related to social development particularly in education, environment and volunteerism. She will primarily take charge of institutional marketing and resource mobilization; Cancer Lecture Series and SISDEP Tech-Voc Scholarship Project for girls.
- Hired Field Program Manager – Rosalito Tabangay Abin (to replace Ramil A. Tabangay), a native of Manamoc with educational background in AB Philosophy/Sociology and Theological Studies and MA in Pastoral Ministries. Prior to his engagement with ASF, he was in the academe as full-time faculty/instructor in the higher education department of Mt. Carmel College in Baler, Aurora.
- With the departure of 2 project-based community development workers last year, 2 registered social workers were hired in their stead.
- With hiring of the above-staff, all positions in the Foundation are fully filled-up with a total staff of 21.
- Annual Program Evaluation and Planning Workshop conducted in July. As observed annually, Performance Evaluation of each staff and Staff Training and Development were conducted

| Officers | Position | Area of Assignment |
|-----------------------------|---|--|
| 1. Lemia L. Simbulan | Executive Director- Operations Manager | |
| 2. Rosalynn V. Estor | Deputy Director – Marketing/ Resource Mobilization and Donor Management | |
| Senior Staff | | |
| 3. Lorlyn O. Angot | Accountant | |
| 4. Rosalito T. Abin | Field Program Manager | Across Sites |
| 5. Jerosa A. Tabangay | Sr. Project Officer for Environment & Education | Quiniluban |
| 6. Maricel A. Delos Angeles | Community-based Health Project Officer | Quiniluban Areas and Agutaya Poblacion |

| | | |
|--|---|------------------------------|
| 7. Jennelie D. Jardinero | Admin/Personnel and Bookkeeper | Manamoc-based |
| Project-based (Contractual) | | |
| 8. Jeralyn C. Dagaraga | Supervising Project Officer for Environment & Health | Cuyo / Magsaysay Areas |
| 9. Jessie P. Udani | Technical Officer - Marketing & Networking for Communities' Livelihood Products | Across Sites |
| 10. Daniel G. Dino | Sr. Project Officer for Livelihood Organizing | Across Sites |
| 11. Michael G. Melad | Agri-Technician/Livelihood QC | Across Sites |
| 12. Rainheart Arce | Community Development Worker | Cuyo/Magsaysay Areas |
| 13. Angelito L. Gabasan | Community Development Worker | Agutaya Areas |
| 14. Anita C. Aquias | Education Coordinator - SHS | Manamoc-based |
| Field Offices' Admin and Accounting/Logistics Staff | | |
| 15. Raul A. Viguella | Cashier (Part-time) | Manamoc-based |
| 16. Victoria L. Pagdulagan | Admin. Asst./Cashier (Part-time) | Agutaya-based |
| 17. Jerry T. Jardinero | Boat Captain/Staff houses Maintenance/Infra Projects Asst. | Manamoc-based (Across Sites) |
| 18. Norbert Rey G. Queron | Boat Mechanic/Helper (Contractual) | Manamoc-based (Across Sites) |
| Pasay-based Rank & File | | |
| 19. Ivy P. Rizado | Accounting Assistant | Pasay-based |
| 20. Virgilio L. Cabiltes | Driver/Messenger/Logistics/Help (all around) | Pasay-based |
| Pasay-Based Contractual | | |
| 21. Leonila P. Gregorio | Admin/Logistics/Personnel Assistant | Pasay-based |

2. ASF's Registration and License to Operate were renewed and, at the same time, Accreditation of programs and services was secured from DSWD. Authority to conduct fund campaign was also secured from DSWD.
3. Sustained ASF Membership with NGO Networks and Institutional Partnership
 - Association of Foundations
 - League of Corporate Foundations
 - Philippine Council for NGO Certification
 - Office of the Vice President
 - Dualtech Training Center
 - Aniham Technical School (New)

4. Sustained partnership with various government agencies related to the implementation of its programs and services
 - Department of Education
 - Department of Health
 - Department of Trade and Industry
 - Department of Social Welfare and Development

A Ceremonial Roll-out of
Mobile Infusion Clinic

Dr. AH Villalon, ASF Trustee during the ceremonial roll-out welcoming the guests from J & J's Asia-Pacific Operations

Cancer Lecture with cancer patients and family members during the roll-out of Infusion Van donated by J & J to ASF for the Cancer Institute at UP-PGH

Cancer lecture and Outreach Program in Ternate, Cavite

Cancer lecture and Outreach Program in Ternate, Cavite

SMALL ISLAND SUSTAINABLE DEVELOPMENT PROGRAM

Education Program

Shailyn Parangue from Manamoc graduated last July 2019 with BS Psychology Diploma

10 Tech-Voc Scholars enrolled at Dual Tech last June 2019

11 Tech-Voc Scholars enrolled at Anihan Technical School last June 2019 for a 1-year course on Quick Service Restaurant Operation

Some of the Lab Equipments donated by ASF and its partner to Senior High School Lab of Manamoc National High School

LIVELIHOOD PROGRAM

Provide technical assistance to community beneficiaries in ensuring quality produce. ASF also facilitates/link beneficiaries to market.

ASF maintains its demo vegetable farm as a show window for community replication.

Diit Women Weavers (in Agutaya) supplying Beach Hats to Amanpulo

COMMUNITY-BASED HEALTH PROGRAM

13th Annual Health Caravan

Island Barangays of Manamoc, Algeciras, and Concepcion
Municipalities of Cuyo and Agutaya
29-31 May 2019

Distribution of P & G donations: laundry soap and baby diapers

Health Lecture with mothers

Organic Vegetable Garden in Manamoc Elementary School: Nutrition Promotion Project

Turn-over of Medical Equipment to Barangay Manamoc donated by ASF and its donor partner. Witnessing the turn-over is DOH Regional Director Mario Baquilod.

Various basic medical equipments donated by ASF and Partner
For use by the Manamoc Barangay Health Station

Newly constructed Kitchen for use by mothers in the preparation of food for the Feeding Program of children 4 years old and under. This is complete with burner stove and water connection and a hand wash area for the children.

Training workshop of all Midwives and BHWs representatives coming from Cuyo, Agutaya and Magsaysay on the use of Safe Delivery App to ensure safe delivery of pregnant mothers. This is a pioneering project of ASF on Women's Health in partnership with DOH Regional Office IV-B and Maternity Foundation from Belgium.

ENVIRONMENT PROTECTION

Mr. Soriano and his guest planting Mangrove Propagules at the Caseledan Lagoon in Manamoc

Mangrove planting participated by teachers and students

Mangrove Potting Activities in partnership with Manamoc National High School

Potted Mangrove Propagules ready for planting from ASF Greenhouse

Mangrove and Coastal Clean-up by students

A grant to construct the Manamoc Multi-purpose Center was secured from Seacology –USA for use by the various People's Organizations in the community.

A commitment protecting and preserving Manamoc's Caseledan Lagoon and Mangrove Forest had been made in exchange for the grant to build the Center.
